

## How do I ask the presenter a question?

Type your question into the **Live Q&A box** on the right-hand side of the portal during the session. You can choose to ask a question anonymously, although it is always nice for the speaker to know who they are talking to. For oral and symposia sessions, please include the presenter's name at the beginning of your question.

The session chair will ask the questions and the presenter will respond verbally. Oral presenters will answer questions at the end of their presentation. Symposia presenters will answer during the panel discussion at the end of the session.
